13. Restrictions (Optional) (State and/or attach unique requirements and/or mission specific restrictions specific to this IAA).

14. Assisted Acquisition Small Business Credit Clause (The Servicing Agency will allocate the socio-economic credit to the Requesting Agency for any contract actions it has executed on behalf of the Requesting Agency.)

15. Disputes: Disputes related to this IAA shall be resolved in accordance with instructions provided in the Treasury Financial Manual (TFM) Volume 1, Part 2, Chapter 4700, Appendix 10; Intragovernmental Business Rules.

16. Termination (Insert the number of days that this IAA may be terminated by written notice by either the Requesting or Servicing Agency.)

60

If this agreement is canceled, any implementing contract/order may also be canceled. If the IAA is terminated, the agencies shall agree to the terms of the termination, including costs attributable to each party and the disposition of awarded and pending actions.

If the Servicing Agency incurs costs due to the Requesting Agency's failure to give the requisite notice of its intent to terminate the IAA, the Requesting Agency shall pay any actual costs incurred by the Servicing Agency as a result of the delay in notification, provided such costs are directly attributable to the failure to give notice.

17. Assisted Acquisition Agreements – Requesting Agency's Organizations Authorized To Request Acquisition Assistance for this IAA. (State or attach a list of Requesting Agency's organizations authorized to request acquisition assistance for this IAA.)

DHQP, NCEZID, CDC

18. Assisted Acquisition Agreements – Servicing Agency's Organizations authorized to Provide Acquisition Assistance for this IAA. (State or attach a list of Servicing Agency's organizations authorized to provide acquisition for this IAA.)

CPSC, Bethesda, MD.

19. Requesting Agency Clause(s) (Optional) (State and/or attach any additional Requesting Agency clauses.)
CDC Statement: "The funding on this agreement is only available to pay for work performed within the dates of the Agreement Period. The funding cannot be used to pay for work prior to the start date of the Agreement Period or after the end date of the Agreement Period."

Travel & Equipment Clause: Travel under this agreement is subject to allowances authorized in accordance with Federal Travel Regulations, Joint Federal Travel Regulations, and/or Foreign Service Regulations. CDC will retain the title to any equipment procured under this agreement, unless otherwise justified in the statement of work.

20. Servicing Agency Clause(s) (Optional) (State and or attach any additional Servicing Agency clauses.)

21. Additional Requesting Agency and/or Servicing Agency Attachments (Optional) (State and or attach any additional Requesting Agency and or Servicing Agency attachments.)

This agreement is entered into pursuant to the authority of the Economy Act of 1932, as amended (31 USC § 1535) [or cite here another statutory reference] and adheres to Federal Acquisition Regulation 6.002. To the best of our knowledge the work requested will not place DOE and its contractor in direct competition with the domestic private sector.

22. Annual Review of IAA

By signing this agreement, the parties agree to annually review the IAA if the agreement period exceeds one year. Appropriate changes will be made by amendment to the GT&C and or modification to any affected Order(s).

AGENCY OFFICIAL

The Agency Official is the highest level accepting authority or official as designated by the Requesting Agency and Servicing Agency to sign this agreement. Each Agency Official must ensure that the general terms and conditions are properly defined, including the stated statutory authorities, and, that the scope of work can be fulfilled per the agreement.

The Agreement Period Start Date (Block 5) must be the same as or later than the signature dates.

Actual work for this IAA may NOT begin until an Order has been signed by the appropriate individuals, as stated in the Instructions for Blocks 37 and 38.

Statement of Work

Funding for Interagency Agreement **16FED1609441-0001**

Title: All Adverse Effects Due to Therapeutic Drugs

Period of Performance: July 21, 2016 to September 30, 2016

I. Purpose

This agreement is to provide funding for the collection of adverse drug event-related injury and illness data in Fiscal Year 2016. Under this agreement between the Centers for Disease Control and Prevention (CDC) and the U.S. Consumer Product Safety Commission (CPSC), CDC will contribute to the cost of the National Electronic Injury Surveillance System (NEISS) and CPSC will maintain or enhance the current scope of NEISS to accommodate the special interests and needs of CDC for adverse drug event-related injury and illness data for victims of all ages from October 1, 2015 through September 30, 2016. It is recognized that through a collaborative, long term commitment to the NEISS that both agencies benefit from program improvements, training, and cost sharing that assist in the timely assessment of injury/illness incidents and that foster future projects of common interest.

II. Background

CPSC contracts with hospital emergency rooms to collect injury/illness data for the data system known as NEISS. This system is used by CPSC to identify and measure the magnitude of the injury problems associated with consumer products that are treated in hospital emergency departments in the U.S. and its territories.

NEISS is a tri-level data collection system, with the capacity for collecting data at emergency departments, from telephone follow-up interviews with hospital staff and/or victims, and from in-depth interviews with injured/ill parties and/or witnesses at the sites where the injuries/illnesses occurred. One, two, or all three of these levels are used by CPSC as primary data collection tools.

Since 1978, other Federal Agencies have found it useful to share NEISS, including having CPSC expand the scope of the injuries collected or add to the list of variables to be collected. Agencies which have shared NEISS data through interagency agreements in the past include: Environmental Protection Agency (EPA), Centers for Disease Control and Prevention (CDC), National Highway Traffic Safety Administration (NHTSA), Food and Drug Administration (FDA), and the Bureau of Justice Statistics (BJS). Through interagency agreements with CDC in FY 2003 through FY 2014, CPSC expanded NEISS to include all adverse drug event-related incidents involving therapeutic use. In FY 2015, CPSC also began work on including adverse drug event-related incidents involving self-harm, assault, abuse, and undetermined intent of use.

CDC has a need to measure the number and rate of adverse drug-related injuries. NEISS has provided this information on an ongoing basis and in a timely and cost-effective manner. Under this agreement, CDC will contribute funds towards the cost of NEISS contracts in return for sharing of data from this system.

III. Scope of Work

- A. Under the terms of this agreement, CPSC agrees to effect modifications to NEISS to meet the needs of CDC in collecting adverse drug event-related injury and illness data. These

modifications were put in place in past agreements dating most recently back to FY96. These modifications expanded the scope of data collected through the NEISS system to include adverse drug event-related injuries and illnesses regardless of product involvement, added CDC special study variables to the NEISS surveillance system for adverse drug event-related cases, and established a system whereby CDC is routinely provided with adverse drug event-related data collected through the NEISS system. This agreement covers adverse drug event-related injuries and illnesses to victims of all ages who are treated in the CDC hospital sub-sample (nominally 63 hospitals) of the entire NEISS hospital emergency department sample (nominally 100 hospitals) from October 1, 2015 through September 30, 2016.

Under the terms of this agreement CPSC shall:

1. Provide CDC with all in-scope adverse drug event-related injury and illness data from the CDC hospital sub-sample, including standard NEISS data variables and CDC special study variables for adverse drug event-related cases.

IV. Period of Performance

This agreement is approved from the date of signature for both agencies through September 30, 2016.

Period of Performance July 21, 2016 to September 30, 2016

This agreement is severable

V. Estimated Costs

Estimated costs are \$93,000. This cost estimate is broken down into the following sub-categories:

\$93,000 for adverse drug event-related case reporting and quality assurance.

TOTAL: \$93,000

The distribution of funds within the categories may be modified as needed by CPSC to complete the collection of the CDC adverse drug event-related injury and illness data through NEISS.

VI. Funding

All funds provided by CDC in this agreement must be obligated by the performing agency by the end of the fiscal year in which the funds expire. Any unobligated but expired funds may not be used to fund services in subsequent periods. The CDC Financial Management Office (FMO) must be notified of any unobligated funds pertaining to this agreement at least 60 days before the end of the fiscal year so that the agreement can be amended to reduce the obligated amount when appropriate. The notification must be provided to the address cited below (in paragraph VIII).

VII. Conditions of Payment (including under a Continuing Resolution)

Under terms of this agreement, CDC will affect the transfer of \$93,000 to CPSC in Fiscal Year 2016 immediately upon receipt of this signed Interagency Agreement and billing statements.

VIII. Accounting and Billing Information

Funds for this project for FY2016 in the amount not to exceed \$215,000.00 will be transferred to CPSC via IPAC using the following account data:

	<u>From</u>	CAN	<u>To</u>
Agency	CDC		CPSC
Appropriation	75160943	939XXZG	0100A16RSE-2016-1117900000-EXHR004310-252E0
EIN	586051157		US Treasury Code: 6160100

DUNS#	927645465		069287522
TIN			520978750
CAN	939ZZXG		
	5-6PP9ALG		
Object Class	25308		252E0
Amount	\$93,000.00		\$93,000.00

When billing CDC through the IPAC system, CPSC will reference agreement number CDC 16FED1609441.

When funds are provided to the performing agency in advance of services being performed or goods being delivered, the performing agency is required to provide, within 15 days of the end of each quarter, statements of obligations and expenditures made during the quarter. These statements are also provided to the address below:

CDC, FMO
Attn: IPAC Desk
1600 Clifton Road, MS D-06
Atlanta, GA 30333

IX. Equipment

If equipment is procured by CPSC to accomplish the program's goals and objectives using funds provided by this interagency agreement, CDC will retain title to the equipment, with the exception of equipment procured in support of the overall NEISS project for which CPSC shall retain title of equipment.

X. Travel

Travel under this agreement is subject to allowances authorized in accordance with the Federal Travel Regulations, Joint Federal Travel Regulations, and/or Foreign Service Regulations.

XI. Conflict with Existing Agreements

There is no duplication or conflict with existing agreements, policy, or statute.

XIV. Modification and Cancellation

This agreement may be modified by mutual consent of both parties or canceled upon 30 days advance written notice by either party.

XV. Authority

This agreement is entered into under Section 601 of the Economy Act, as amended (31 U.S.C. 1535) and the Consumer Product Safety Act.

XVI. Information Safeguards

CDC shall comply with the Privacy Act in using and storing information related to this agreement. CDC shall provide CPSC with written assurances satisfactory to CPSC that the identity of any injured/ill person, and of any person who treated an injured/ill person, shall not be included in any report or information made available by CDC to any member of the public. CDC also agrees that it shall not disclose information compiled under this agreement to the public if the information describes a consumer product in such a manner that will permit the public to ascertain readily the identity of the

manufacturer or private labeler of a consumer product under the authority of the Commission unless the Commission is notified, and the Commission complies with Section 6(b) of the CPSA (15 U.S.C. 2055).

CDC shall maintain all publicly accessible NEISS data records through internet file downloads, web-based query systems, or other electronic mechanisms such that individuals or NEISS hospitals are not directly or indirectly identifiable. CDC shall refer all public requests for hospital identities to CPSC. CDC shall provide CPSC, at their discretion, the opportunity to review for up to 30 days all bulk NEISS adverse drug event-related data prior to intended release via internet file downloads, web-based query systems, or other electronic mechanisms.

CDC shall be considered the originating agency for all adverse drug event-related injury and illness cases, including basic NEISS case data and any supplemental data collected. CDC shall serve as the CDC center responsible for employing adequate and effective security controls to protect the confidentiality, availability, and integrity of adverse drug event-related NEISS data, including all data shared with other organizations. CDC shall ensure, prior to the sharing of any data, that the recipient organization affords the appropriate equivalent level of security controls as maintained by CDC, the originating agency. Since data security remains the responsibility of CDC, procedures shall be agreed to in advance that provide for the security controls of the recipient organization.

Because individual NEISS case information for adverse drug event-related injuries and illnesses are considered extremely sensitive and public release of the NEISS data may harm the affected patient, CDC, as the originating agency shall establish agreements with recipient agencies that consider and apply all appropriate management, operational, and technical security controls including physical security needs, such as whether personal information is so sensitive that it should be kept in an approved security container, or whether access to where the information is located should be limited; personnel security needs, such as additional controls over individuals who have access to data; network security, including encryption for data in transit and protection for data at rest; and procedures for the retention and timely destruction of identifiable records. CDC shall provide CPSC a period of up to 30 days to review and provide comment on the privacy and security implications of new data sharing agreements. Once appropriate interagency data sharing agreements have been established between CDC and recipient agencies, CDC may, at its discretion, authorize CPSC to provide NEISS adverse drug event-related case data directly to the recipient agency.

From time to time, CPSC may be contracted by other agencies to collect supplemental information on specific cases that include adverse drug event-related injuries and illnesses. Because the activities of the contracting agency and subsequent release of the adverse drug event-related data collected has the potential to harm individual patients and compromise CDC's ability to continue to collect adverse drug event-related injury and illness data through NEISS, CPSC shall provide CDC a period of up to 30 days to review and provide comment on the privacy and security implications of the new data collection. CPSC shall ensure that agreements with contract agencies include provisions requiring the contracting agencies to apply all appropriate management, operational, and technical security controls including physical security needs, personnel security needs, network security, and procedures for the retention and timely destruction of directly or indirectly identifiable records. Additionally, CPSC shall make a reasonable effort to ensure that CDC have, at their discretion, a period of up to 30 days for review of

products arising from such agreements that include adverse drug event-related case information and that are intended for public release. The CDC review shall not prohibit data release nor shall it be implied to indemnify CPSC or other agencies in the event of public release of personal identifiers through their data release mechanisms.

CDC, as the originating agency, shall be notified in a timely fashion of all adverse drug event-related data requests under the Freedom of Information Act (FOIA) or other applicable court order. Routine FOIA requests specific to only adverse drug event-related case information shall be referred to CDC for disposition. Requests for mixed data including more than just adverse drug event-related case information shall be responded to by CPSC with the opportunity for CDC to provide comment on the releasability of the adverse drug event-related case data.

The provisions in this section, Information Safeguards, shall not in any way prohibit or limit the use of the NEISS adverse drug event-related injury and illness data by CPSC staff in fulfillment of their agency mission and responsibilities. CPSC shall make a reasonable effort to ensure that CDC have, at their discretion, a period of up to 30 days for review of products that include significant adverse drug event-related case information and that are intended for public release. The CDC review shall not prohibit data release nor shall it be implied to indemnify CPSC.

Consumer Product Safety Commission: (~~16FED16094X00001~~)

1. Nature and/or description of the action being approved.

The purpose of the project titled: "Adverse Events due to Therapeutic Drugs (ADEs)" is public health monitoring of serious adverse effects from medications. The U.S. Consumer Product Commission (CPSC) will provide timely ADE data from the National Electronic Injury Surveillance System (NEISS) to CDC. This system is unique in the capacity to provide timely, detailed, and nationally representative data on adverse drug events treated in emergency agreement. In summary, this activity supports CDC's goals of integrating and enhances existing surveillance systems to detect, monitor, report, and evaluate public health threats and to prevent adverse events in patients. The amount is ~~\$122,000.00~~ \$93,000.00

2. This D&F is based on the provisions of the Economy Act, 31 U.S.C. 1535
3. It is agreed that DHQP will participate in the scientific and technical oversight of the project in conjunction with the CPSC. The CPSC will be responsible for fiscal management of the project. (This project does not involve human subjects' research).
4. The interagency acquisition is in the best interest of the Government and the services cannot be obtained as conveniently or economically by contracting directly with a private source.
5. If the Economy Act order requires contract action by the servicing agency, the D&F must also include a statement that at least one of the following circumstances applies:
6. NCEZID has determined that the use of (Consumer Product Safety Commission (CPSC) is best procurement approach based on the following:
 - a. CPSC currently has an appropriate vehicle in place that allows for recruitment of skilled, knowledgeable individuals whose expertise has historically resulted in the successful completion of critical research projects for the agency. Use of this existing relationship is in the best interest of taxpayers because of minimal overhead costs and reduced time investment by CDC personnel.
 - b. DHQP has been the requesting organization for multiple years with NEISS/CPSC and has expertise with administering the agreement throughout the acquisition lifecycle.
 - c. The IAA is an existing mechanism that has been successfully managed by the CDC for many years.
7. Signature: The D&F must be signed either by the official who signs the IAA request, or an individual acting with the authority of the IAA signer, or a higher authority. The Contracting Officer must also sign the D&F in concurrence.
