SUMMARY OF MEETING: Presentation was made to the group on the Federal Hazardous Substances Act and the LHAMA amendments. The talk specifically addressed the exemptions for writing instruments under the FHSA (16 CFR 1500.83) and the requirements imposed by the LHAMA amendments for producers of art materials. The two guidance documents published in 1998, on lead in children's products and on hazardous liquid chemicals in children's products were also briefly discussed and distributed to the group.
