**SUMMARY OF MEETING:**

Mr. King (CPSC) gave a brief overview of incident data sources and incidents involving light bulbs received during the past year. Some incident samples were shown at the meeting. He also presented CPSC staff positions regarding necessary minimum safety requirements for incandescent torchiere lamps, and CPSC test results which supported the development of recommendations to UL for upgrading UL 153.

CPSC staff will be pleased to meet with the light bulb manufacturers again next year to share technical information.
