**CPSC-D-06-0002 Task Order 0021
STATEMENT OF WORK
Import Stoppage Maintenance Application**

1. DESCRIPTION OF SERVICES:

The contractor shall develop maintenance Import Stoppage Application. The application shall allow a user to view/verify recalls data prior to sending, correcting, rejecting and resenting recalls data in an XML/Excel format to China via the file transfer process. The application will be used by CPSC's Office of Education, Global Outreach and SBO (EXGO).

2. CONTRACT TYPE

This procurement is a firm-fixed price, performance-based task order.

3. SERVICES AND PRICES:

The contractor shall propose the total number of hours required in accordance with the fixed hourly rate (\$130.72, CLIN 0007) to successfully complete the task as specified herein.

4. OBJECTIVE:

The contractor shall design and develop a maintenance Import Stoppage Application database.

5. PERFORMANCE WORK STATEMENT:

The contractor shall work independently, and not as an agent of the Government, the Contractor shall furnish all necessary personnel and services to develop an Import Stoppage Maintenance Application program to support the EXGO as follows:

(1) The contractor shall develop an Import Stoppage Maintenance application in accordance and include the following capabilities:

Functional Requirements:

- (a) The contractor shall design and create CPSC Import Stoppage Maintenance database.
- (b) The contractor shall develop program to load Product Violations data from Compliance database as input for Import Stoppage database. This program will be executed on a scheduler daily to identify new Product Violations data from Compliance.
- (c) The contractor shall develop a pending tab to identify list of new Product Violations to be reviewed for Import Stoppage.

- (d) The contractor shall develop selected tab to identify list of Product Violations selected for Import Stoppage. In addition, allow user to search for an Import Stoppage by specifying a sample number.
- (e) The contractor shall develop a Product Violations detail screen for user to view Compliance Product Violations source data and edit import stoppage data.
- (f) The contractor shall develop program to sending email automatically as part of the generation of the Import Stoppage Excel spreadsheet output file.
- (g) The contractor shall train EXGO and TSAD staff users on how to use the full functionality of the implemented solution and includes documentation of the source code.

5. PERIOD OF PERFORMANCE

The performance period shall begin on the effective date of this task order (block 3) and continue for three (3) months.

6. CONTRACTOR QUALIFICATIONS

- a. The contractor shall assign qualified and trained employees to perform the work in accordance with the basic contract.
- b. The contractor shall have expert knowledge of the CPSC systems and project environment.

7. DELIVERABLES AND SCHEDULE

The following deliverables must be performed or delivered in accordance with the following schedule:

The contractor proposal shall include approval or other actions of each deliverable.

Deliverable Requirements:	Planned Completion date	Deliverable
1) <u>Project Management</u>	NLT close of business each Thursday	Weekly status report, containing at a minimum the status of the project and progress against baseline schedule, and issues and risks and proposed solutions
2) <u>Project Reporting</u>	3 business days prior to the end of the	Monthly status report

	month	
<p>3) <u>Design & Database</u></p> <p>Holding concept design review meeting with CPSC staff.</p> <p>Develop logical and physical data models.</p> <p>Generate database Entity Relationship (ER) diagram.</p> <p>Develop SQL database creation scripts for tables, indexes, triggers and stored procedures.</p>	<p>5 working days after contract award</p>	<p>Deliverable #1:</p> <ul style="list-style-type: none"> - A presentation and design concept review with CPSC staff (ISSO, and members of TSAD, TSNE, and TSCS as identified by the Project Officer), during which the Contractor shall discuss the design approach, implementation and testing plan, recommended operational support, and security controls. - Entity Relationship Diagram of Database Physical Data Model. - SQL Database creation script for tables, indexes, triggers and stored procedures. - Successfully execute SQL scripts to create new database and its objects.

---	---	---

8. INSPECTION AND ACCEPTANCE PERIOD

a. The CPSC Project Officer will review deliverables submitted by the contractor within ten (10) working days. If the CPSC requires corrections, the Contractor shall modify and resubmit within five (5) working days after being notified of the required corrections.

b. Acceptance/rejection of deliverables will be based on conformance with paragraph 6, Performance Work Statement.

c. The CPSC Project Officer will provide to the Contractor a written acceptance or rejection of the Contractor's deliverables through an email within ten (10) working days after completion of services and submission of deliverables by the contractor.

9. GOVERNMENT FURNISHED MATERIALS

a. The government will provide on-site workspace, laptop computers, monitors, computer accessories, and access to CPSC systems, databases, and documents as need is determined at the government's discretion, and as allowed by security and contractual constraints.

b. The CPSC Import Stoppage Maintenance System Statement Of Work is provided as Government Furnished Information (GFI).

10. QUALITY CONTROL

The Contractor shall develop and maintain a quality control program to ensure qualified and professional personnel are being provided and that their performance is in accordance with the criteria stated within this Performance Work Statement and the commonly accepted commercial practices.

11. PROJECT OFFICER DESIGNATION

a. The following individual has been designated as the Government's Project Officer for this contract:

Name: Roy Phillips

Division: EXGO

Telephone: 301-504-7850

Email: rphillips@cpsec.gov

b. The CPSC Project Officer is responsible for:

(1) Monitoring the Contractor's technical progress, including surveillance and assessment of performance, and notifying the Contracting Officer within one week when deliverables (including reports) are not received on schedule in accordance with the prescribed delivery schedule.

(2) Performing technical evaluation as required, assisting the Contractor in the resolution of technical problems encountered during performance; and

(3) Inspection and acceptance of all items required by the contract.

c. The Project Officer is not authorized to and shall not:

(1) Make changes in scope of work, contract schedules, and/or specifications to meet changes and requirements,

(2) Direct or negotiate any change in the terms, conditions, or amounts cited in the contract; and

(3) Take any action that commits the Government or could lead to a claim against the Government.

d. A clear distinction is made between Government and Contractor personnel. No employer-employee relationship will occur between government employees and contractor employees. Contractor employees must report directly to their company (employer) and shall not report to Government personnel.
