

## LOG OF MEETING

CPSA 600(1) CLEARED FOR PUBLIC

NO MEMS/PRVT LABELS OR  
PRODUCTS IDENTIFIED

EXCEPTED BY PETITION  
RULEMAKING ADMIN. PROCDG

WITH PORTIONS REMOVED: \_\_\_\_\_

**DATE:** February 18, 2010

**LOCATION:** CPSC, 4330 East West Highway, Bethesda MD 20814

**SUBJECT:** Presentation of HDXRF Technology

**ATTENDEES:** Berry Beumer, VP XOS; Satbir Nayar, Product Mgr. XOS; Zewu Chen, Director XOS; Quinn Dodd, Counsel on behalf of XOS

**OBSERVERS:** David Carreiro, ThermoFisher Scientific; Stanislaw Piorek, ThermoFisher Scientific

**CPSC ATTENDEES:** Inez Tennenbaum, Chairman; Rebecca Senhauser, Chief of Staff; Janell Duncan, Special Assistant; Matt Howsare, Special Assistant; Andrew Stadnik, AED Lab Sciences; Dave Cobb, Chemist, Lab Sciences

**MEETING HIGHLIGHTS:** The XOS representatives provided an overview of the history of the company and discussed the HDXRF technology their company has developed. The representatives demonstrated a HDXRF analyzer for analyzing toys and children's products for lead and other toxic elements. There was some discussion of the differences, both positive and negative, of using XOS's machine versus "wet chemistry" or other types of non-destructive technology and discussion of the costs of the technology in comparison to non-HDXRF technology. XOS said it was interested in working with smaller manufacturers and trade associations in terms of accessing this type of technology. The XOS presentation slides provided by XOS on March 12, 2010 are also available as a pdf file associated with this meeting log.

**LOG AUTHOR:** Andrew Stadnik

**LOG CREATION DATE:** March 15, 2010
