**To:** Commissioner Moore  
**Subject:** Please support the proposed testing rule

Dear Commissioner Moore,

As an advocate for safety in all children's products, Kids in Danger (KID) is asking that you please vote "YES" on October 19<sup>th</sup> on the rule requiring independent testing of all children's products. The CPSC has made tremendous progress with the CPSIA by establishing the strictest safety standards for children's products in the world, and we are very grateful for that. However, without objective, third-party testing, there is no guarantee that any children's products will meet the new standards. This means that products could still pose risks to children. The products will end up being tested by someone's child, with catastrophic results.

KID was founded by parents whose son was killed in an untested, dangerous product. KID is dedicated to protecting children by improving children's product safety. Our mission is to promote the development of safer children's products, advocate for children, and educate the public - especially parents and caregivers - about dangerous children's products.

Without the passage and implementation of the mandatory testing rule, the CPSIA's effect will be limited. The CPSC and Congress have worked extraordinarily hard to make the CPSIA a reality, and with the passage of this rule, the CPSIA will be able to reach its full, intended potential. Children across the U.S. will be protected from defective and harmful products as never before. Products hitting the shelves will be safer than ever. In addition, product recalls should decline significantly.

As you know, CPSC has worked since the passage of the CPSIA to balance the paramount concern of safety with consideration of the impact on business. We believe this rule does an excellent job balancing those concerns and will ensure safe products while not harming business.

KID asks that you please vote yes -- you will make an incredible difference in the lives of children and their families, and your hard work on the CPSIA will be fully realized.

Thank you very much.

Nancy

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for ensuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

Please vote "Yes" on this important step for safer children's products.

Sincerely,

Doris Carlino  
4 Avon Street  
Everett 02149

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

As a parent I urge you to vote yes. Lead poisoning from toys is an invisible threat that endangers our kids chances of learning and succeeding. I was recently horrified to realize that one of the painted toys that my son put in his mouth all the time was from China, and I just got a home test to find out if it has been poisoning my son or not. We can't let toys poison our kids. Please vote yes for my son and any of the children in your life.

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. **Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Kevin Macdonald  
P. O. Box 198  
Belgrade Lakes 04918

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Lorraine Lelsie  
102 Hickory Hill Road  
Pittsburgh 15238  
US

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Esther Weaver

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Emma Ausman

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Elizabeth Castro  
52 Lebanon Road  
Winterport 04496

**Sent:** Thursday, October 13, 2011 1:34 PM  
**To:** Comments for Commissioner Adler  
**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

MaryNell and Jim Kerr  
Marietta, GA

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Dana Lucas  
MILLINGTON, TN

**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote “YES” on October 19, 2011 on the rule requiring independent testing of all kids’ products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. **Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote “YES” on October 19, 2011 on the rule requiring independent testing of all kids’ products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting “YES” on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Jeri Canfield  
San Diego, CA

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Chester (Chet) O'Neal  
Lexington, IL

Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Maura Turner  
Dedham, MA

**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. **To:** Comments for Commissioner Adler  
**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Marta Lastufka  
Juneau, AK

Dear Commissioner:

I am a mom with two small children. I'd give my life to keep them safe. I would sacrifice my own happiness to ensure theirs. As much as I want to keep my children safe, there will inevitably be times when I can't. This isn't one of those times. WE have the ability, the forewarning, the chance to change things for the better...and to keep all kids (not just mine) safe. Please help me.

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. **To:** Comments for Commissioner Adler  
**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Ken Burke  
Oakland, CA

Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Cyndy  
WHITE PLAINS, NY

**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. **Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

Eleanor Fox

**Subject:** Please Support Third-Party Testing Rule for Children's Products

To the Commissioners,

Thank you for your attention to implementing a strong Consumer Product Safety Improvement Act. I am eager to hear that you will be voting "Yes" on the upcoming vote on the Third-Party Testing Rule for Children's Products.

Independent, third-party testing is the gold standard for insuring that toys and other children's products that come to our marketplaces are safe. Testing will help prevent unsafe products from getting into children's hands, will reduce the number of product recalls, and enhance consumer confidence in product safety.

I urge you to vote "Yes" on this important step for safer children's products.

Sincerely,

michael riley  
20 canton rd  
Quincy 2171

**To:** Comments for Commissioner Adler  
**Subject:** Please vote yes for 3rd party toy testing!

Dear Commissioner:

I am writing to ask that you vote "YES" on October 19, 2011 on the rule requiring independent testing of all kids' products. This type of testing is sorely needed. Independent third party testing before products go on the market would insure the quality and safety of the products our kids interact with daily.

The mandatory testing rule would have the added bonus of reducing the amount of product recalls that parents have to juggle by making the toys safer before they hit the toy stores. Fewer recall is a win-win for businesses and families because that means less returning of items to the manufacturer, less post-recall inconveniences, and fewer unhappy surprises when it comes to products in our homes. Fewer recalls would save businesses money, and save children from tears as favorite toys have to be returned.

Protect kids and families across the country by voting "YES" on the mandatory testing rule on October 19th with your fellow Commissioners.

Thank you,

Leighta Johnson  
Orefield, PA
